

Summary

I am a passionate and driven web developer looking for my first job, where I can expand my skills and acquire new ones, both on frontend and backend. Programming has always been my personal interest and passion, and my motivation comes from the opportunity of learning new skills. I consider myself a natural self-learner, who can pick up new knowledge quickly and efficiently.

I always deliver my work on time, and I ensure what I finish will meet the required standard. I am open to challenges and opportunities of stepping out of my comfort zone in order to learn and improve my abilities.

Skill Highlights

- Quality-focused
- Time management
- Self-learner
- Team player
- Flexible
- Problem solver
- Strong communication skills

Experience

2023 WorldSkills UK Web Development Competition

- Winning gold medal in national finals in November 2023
